# Test Case Design

- To test the system, we will insert a Bill Board into our system and see how it passes all the phases.
- First we have to insert a Board in the entry subsection. Board related informations are [inserted using Master UI]:

Supplier: Neptune Outdoor Co. Ltd. Code :3

Type : Bill Board. Code :BB

District: Khulna Code: 6

Area : Amin Bazar Code: 0001

Count :015

- So the autogenerated sitecode expected from the system is  
BB-3-6-0001-015  
Sizeh=3 ft, Sizev=4 ft and 3 ft. Then Total Size expected from system is 36

- Then costing information is given. We use 2 informations here .

1.

Cost for one board = 270

Net cost = 270 [expected from system]

Cost/sq ft= 7.5 [expected from system]

Month =6

2.

Cost for one board = 135

Net cost = 135 [expected from system]

Cost/sq ft=3.75[expected from system]

Year =1

- If we add these information then the Cost List will be shown.

- If a picture is used for this board the Code name will be
- BB-3-6-0001 Khulna AminBazar 3 x 4 x 3.bmp
- If it is inserted then the pictures will be copied to a folder named according to the supplier and other information are saved.
